

Garvin Statement on the Nomination of Michael Regan to the U.S. Environmental Protection Agency

Delaware Secretary of Natural Resources and Environmental Control Shawn M. Garvin, a former Regional Administrator of EPA Region 3, issued the following statement:

“I applaud the selection by President-Elect Biden of my state environmental colleague Secretary Michael Regan to lead the U.S. Environmental Protection Agency. I’m especially pleased that EPA will be led by someone from a coastal state facing the same climate-related issues as Delaware. Secretary Regan’s career – at the EPA, in the non-profit and private sectors, and currently as the leader of the North Carolina Department of Environmental Quality – gives him the experience and skill to address the challenges of environmental justice, climate change, safe and clean water, and cleaner air, just to name a few. His reliance on science and the rule of law, along with his compassion and understanding, make him the right person at this critical moment for our country and our planet. I congratulate Secretary Regan and commend President-elect Biden and Vice President-elect Harris for this nomination.”

About DNREC

The Delaware Department of Natural Resources and Environmental Control protects and manages the state’s natural resources, protects public health, provides outdoor recreational opportunities and educates Delawareans about the environment.
